

Coronavirus (COVID-19) catch-up premium: Dene Magna School

Children and young people across the country have experienced unprecedented disruption to their education as a result of coronavirus (COVID-19). The government COVID-19 catch-up premium has been established to mitigate the effects of the unique disruption caused by coronavirus. They have announced £1 billion of funding to support children and young people to catch up. This includes a one-off universal £650 million catch-up premium for the 2020 - 2021 academic year to ensure that schools have the support they need to help all pupils make up for lost teaching time. All mainstream schools will receive £80 for each pupil from year 7 to year 11.

Schools should use this funding for specific activities to support pupils to catch up for lost teaching time over the previous months. To support schools to make the best use of the funding, the EEF has published a support guide:

<https://educationendowmentfoundation.org.uk/covid-19-resources/covid-19-support-guide-for-schools/#nav-covid-19-support-guide-for-schools1>

Schools should set out how they will allocate the additional funding to support curriculum recovery this academic year. Dene Magna will be using the EEF guidance suggested 3-tiered approach and will link it with their own Assessment Review Cycle for 2020 -2021.
